House Committee Approves King Bill to Stop Income Tax Dodge

The House Ways and Means Committee has voted approval of Congressman Cecil R. King's bill to stop the 18-month overseas income tax dodge and prevent the loss of several million tax dollars annually to the United States. King predicted early passage by Congress of his legislation to plug a loophole in the present income tax law which has allowed movie stars and others to earn money outside the country and remain abroad for 17 out of 18 months and thus escape U. S. income taxes. The tax loophole resulted from a 1951 law which was passed to let special technicians keep what they earned while employed on U. S. aid jobs abroad. Law Misused In a House speech urging repeal of this section of the Internal Revenue Code, Congressman King pointed out how the law was being misused by movie personalities and others for the purpose of avoiding pay-

Hot Weather Hazards Discussed By Expert

Hot weather, such as that recently experienced in Torrance, may be the cause of heat prostration (heat exhaustion) or sunstroke (heatsroke), both of which are conditions injurious to health. Emergency first aid is very important in case of sunstroke. The patient should be moved to a cool place and allowed to rest on his back with the head and shoulders raised. Clothing should be removed and, when possible, the body should be moistened with a gentle spray of cool water. In lieu of this, ice which is applied to the head and neck, wet compresses placed on the body. It is not considered advisable to lower the temperature below 102 degrees. Cool water should be given when the patient is conscious. Stimulants and iced drinks are not advised. In either of these conditions a physician should be called without delay. And remember, a few common-sense precautions will nearly always prevent them. The U.S. Public Health Service gives these hot weather rules: Don't expose yourself to the heat when you don't have to. Don't go out in the hot sunshine for any length of time without a hat. Don't wear heavy or tight clothing. Don't exercise strenuously in the hot sun. Don't exercise just before or after meals. Don't overeat. Don't overindulge in alcoholic drinks. It's Results That Pay Off! Use Herald Classifieds! PHONE FA 8-4000
